Compatible Applications:	UV printing, signage, fine art, magnets, ornaments, and more.

REAL-WORLD COMPARISON

Printing Ornaments on Alba vs. MDF and Acrylic
Using a **Mimaki UJF6042 MKII** printer with an **eight-channel ink configuration (W, W, C, M, Y, K, Lc, Lm)**, we compared printing on Alba with MDF and acrylic. While MDF and acrylic required full white ink coverage (100%/100%), Alba eliminated the need for a white ink layer entirely.

Printing Time:	<ul style="list-style-type: none">• MDF/Acrylic: 4 min 9 sec• Alba: 2 min 26 sec (41% faster)
Ink Usage:	<ul style="list-style-type: none">• MDF/Acrylic: 0.384cc• Alba: 0.085cc (78% less ink)

Alba delivers vibrant, high-quality results faster and more efficiently, saving time and ink on every print.

EXPERIENCE THE EXCELLENCE OF ALBA PRINTING SHEETS

Ultra-white flat front, flat
black back

Achieve Superior Print
Quality

UV printing, signage, fine
art, magnets, ornaments,
and more
